

***Sensors and Materials* / General Notes on Format**

Before you submit your revised paper, please ensure that the paper satisfies the following requirements.

- Abbreviations not listed in the Guidelines should not be used in title; spell in full in title.
- The full name(s) of the author(s) should preferably be given.
- The full addresses, including zip codes, of authors' affiliations should be given.
- Abbreviations not listed in the Guidelines should be defined at first use in both abstract and text. Once defined, the abbreviations should be used consistently.
- In title and section headings, capitalize the initial letter of each word except for conjunction and preposition, as well as proper nouns, scientific and trade names, and chemical symbols.
- In subsection headings, capitalize only the initial letter of the first word, as well as proper nouns, scientific and trade names, and chemical symbols.
- Leave a space between numerical values and units except for % and ° (angle).
- Use numerical values or ranges in place of expressions such as “few” and “tens of”, when possible.
- A serial comma should be placed immediately before “and” in a series of three or more items.
- Reference numbers should be added after “period” or “comma”: for example, “... is shown.⁽²⁾” “As reported in the previous study,⁽¹⁰⁾”
- In the References section, the volume number should be given for journal references and the city of publication should be given for book references.
