

## Sensors and Materials

### Call for papers for the Workshop on Sensors and Applications for Fishery and Agricultural Industries

28<sup>th</sup> February 2018, Tokyo University of Agriculture (TUA)

#### Scope

*Sensors and Materials* (<http://myukk.org/>) is designed to provide a forum for people working in the multidisciplinary fields of sensing technology, and publishes contributions describing original work in the experimental and theoretical fields, aimed at understanding sensing technology, related materials, associated phenomena, and applied systems. Expository review papers and short notes are also acceptable.

*Sensors and Materials* is intending to publish a special issue for the workshop on “Sensors and Applications for Fishery and Agricultural Industries” in 2019 and therefore the workshop will be held on 28<sup>th</sup> February 2018 in Tokyo. The workshop will cover areas of interest related to the research and application of sensors in the fishery and agricultural industries.

#### Venue

The workshop will be held at Yokoi Kodo (memorial hall named after Dr. Tokiyoshi Yokoi, the first president of TUA), in the Academia Center at Setagaya Campus of TUA. Access details for the campus can be found at <http://www.ics-com.biz/nodai/outline/map.html>.

#### Abstract Submission

Submit a 300 word abstract in PDF, including Title, Author's name(s), and affiliation(s), to the secretary of the workshop by email at [secretary@nodai.net](mailto:secretary@nodai.net). The deadline for submission is 12<sup>th</sup> January 2018.

#### Fee

Banquet 5,000 JPY ( Students 1,000 JPY )

#### Organizer

Prof/Dr Masaaki Wada (Chairman of the workshop)

Future University Hakodate, [wada@fun.ac.jp](mailto:wada@fun.ac.jp)

Prof/Dr Katsumori Hatanaka (Co-chairman of the workshop)

Tokyo University of Agriculture, [k3hatana@nodai.ac.jp](mailto:k3hatana@nodai.ac.jp)
